About Owens Community College

Owens Community College was established September 13, 1965 as a technical institute with fewer than 200 students enrolled. After 55 years, Owens has touched countless lives by preparing students for in-demand jobs and successful university transfer.

Owens has awarded more than 41,000 associate degrees, but also educated thousands of additional students who transferred to 4-year public or private colleges to pursue a bachelor's degree, earned short-term certifications or enrolled in non-credit classes.

Self-reported graduate data shows that 70 percent of Owens alumni choose to live and work in

local communities, powering the cities' economies and improving their lives at the same time. Owens alumni are found where they are needed the most, at nearby hospitals, doctor's offices, schools, local businesses, police and fire stations, auto service facilities, restaurants and more.

An Owens education carries value beyond the classroom. According to economic impact data*, Owens graduates benefit directly by earning 14 percent higher future earnings for every \$1 they pay for their Owens education.

70 percent

of Owens alumni choose to live and work in local communities

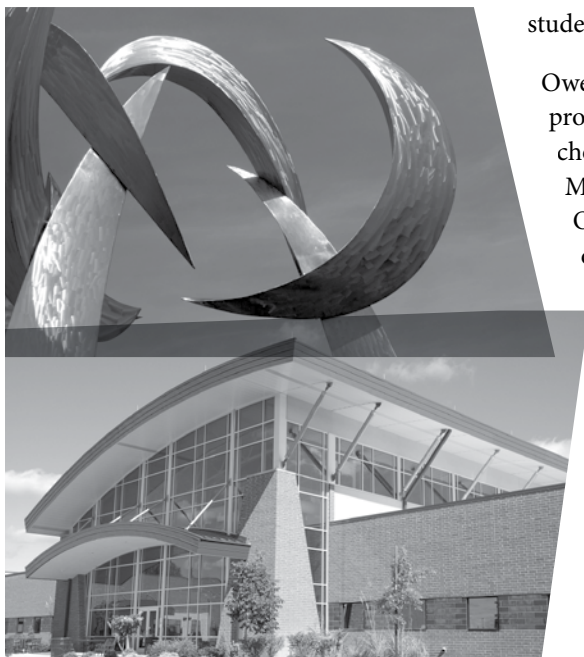

The community at-large benefits as well. The study found Owens Community College generated \$708.3 million in Lucas, Wood and Hancock counties when factoring the College's operations spending coupled with spending from current students and alumni.

The \$708.3 million economic impact produced by Owens is equal to approximately 2.1 percent of the total gross regional product (GRP) in the Owens service district, or the equivalent of creating more than 10,500 new jobs.

In fulfilling its mission through the decades, Owens has responded to labor market needs. Students choose from more than 70 academic programs and career certifications, transfer options and non-credit continuing education courses at campus locations in Perrysburg Township and Findlay as well as online.

In the classroom, the College's caring faculty members continue to teach industry information, skills and ideas so students understand how the classroom knowledge translates into the real world. Class sizes remain small, allowing the Owens mission of success for each individual student to be fulfilled.

Owens Community College is proud to be the community's choice for higher education. More information about Owens is available at www.owens.edu.
