To schedule online, visit www.owens.edu/testing

The Owens online scheduling system can be used to schedule up to 12 hours prior to testing for:

* ATI TEAS V entrance testing for both the RN and LPN programs
* ATI STEP testing for the LPN to RN program
* OCC online courses that require any proctored computer testing on campus

The following students will need to call Testing Services (567-661-TEST) to set up an appointment:

* Any Disability Services testing and/or extended time testing

To schedule an appointment:

1. Select test type/service. For Webcourse testing, locate your instructor’s name along with the course number and test name. The time allowed will automatically populate.

2. Choose either Toledo or Findlay.

3. Select your desired test date. Greyed out days are not available. After you select the date, the available times will appear. Please keep in mind the length of time for the test. It will not allow you to schedule an appointment if the time runs over into an already full time slot.

4. After you have selected a time, a confirmation of your choices will appear. You will need to finalize your appointment. If you are a first-time new user, you will need to register with Appointment Plus. If you are a returning user, select the returning user button and you will be asked for your log-in information.

5. A confirmation email will be sent to you after you have finalized your appointment.

6. If you have any questions, please contact Testing Services at (567) 661-TEST.

Paper/pencil testing does not require an appointment
